SECTION 3. IC 15-2.1-25 IS ADDED TO THE INDIANA CODE AS A NEW CHAPTER TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2003]:

Chapter 25. Cervidae Livestock Facilities

Sec. 1. As used in this chapter, "board" refers to the Indiana state board of animal health established by IC 15-2.1-3-1.

Sec. 2. As used in this chapter, "cervidae livestock facility" means privately owned cervidae livestock on privately owned land.

Sec. 3. (a) This chapter does not give a cervidae livestock facility the authority to take wild or free ranging cervidae, unless authorized by the department of natural resources.

(b) A person who has a cervidae livestock facility permit is not required to obtain a license or permit from the department of natural resources to harvest privately owned cervidae.

(c) Cervidae livestock facilities are agricultural enterprises and are part of the farming and agricultural industry in Indiana.

(d) Subject to this chapter, a cervidae livestock facility may produce, grow, propagate, use, harvest, transport, export, import, or market cervidae species or cervidae products.

Sec. 4. (a) Except as provided in subsection (b), a person must obtain a cervidae livestock facility permit to operate a cervidae livestock facility.

(b) An entity is not required to obtain a license under this chapter if the entity is:

- (1)** a research facility;
- (2)** a circus; or
- (3)** a publicly or privately owned zoological park or petting zoo;

that is licensed or registered by the United States Department of Agriculture under the the federal Animal Welfare Act of 1970, as amended (7 U.S.C. 2131 et seq.).

Sec. 5. (a) To apply for an initial cervidae livestock facility permit, a person must submit to the board the following:

- (E)** The actions and precautions taken to prevent the

transmission of disease among or between wild or free ranging cervidae and privately owned cervidae, including methods of fencing and animal identification.

(F) The proposed method to remove wild or free ranging cervidae from the proposed facility, and the proposed method to verify that the wild or free ranging cervidae have been removed, if applicable.

(G) The record keeping system that will be used.

(H) The current zoning ordinances that apply to the proposed facility.

(b) The board shall forward a copy of the initial application to the county commissioners and any area plan commission or board of zoning appeals where the proposed cervidae livestock facility will be located. Within thirty (30) days after receipt of the application, the local unit of government may respond to the board indicating if the applicant's cervidae livestock facility would violate a local zoning or fence ordinance.

Sec. 6. The board shall inspect a proposed cervidae livestock facility not more than thirty (30) days after the applicant has informed the board that the facility is completed and ready to be inspected.

Sec. 7. (a) The board shall issue a cervidae livestock facility permit to a person when the following requirements have been met:

(1) A completed application has been submitted.

(2) The application fee has been paid.

(7) The cervidae livestock facility complies with local zoning and fence ordinances. If the board does not receive a response from a local unit of government under section 5(b) of this chapter indicating that the proposed facility would violate a local zoning or fence ordinance, the board may presume that

the facility complies with the local zoning and fence ordinances.

(b) If the board denies an applicant a cervidae livestock facility permit, the board shall give the applicant a written denial that specifies the deficiencies that need to be corrected in order for a permit to be issued. Without filing a second application, an applicant may submit a revised application and request a second inspection after the deficiencies have been corrected.

1 expiration of the holder's permit.

2 (b) If the holder of a cervidae livestock facility permit submits
3 a complete renewal application and renewal fee to the board before
4 the expiration of the permit, the expiration of the current permit
5 is extended until the renewal application is approved or denied.

6 Sec. 11. The board may inspect any cervidae livestock facility
7 and collect samples or specimens at the facility during normal
8 business hours.

9 Sec. 12. If a cervidae livestock facility is sold or transferred, the

27 comply with this chapter or standards adopted by the board.

28 (b) The board shall issue written notice to the applicant or
29 licensee stating the board's action, the opportunity for a hearing
30 under IC 4-21.5, and the procedure and time limit for requesting
31 a hearing. If the applicant or licensee does not request a hearing
32 before the board within fifteen (15) days after receiving the notice,
33 the right to a hearing before the board is waived and the notice
34 becomes the final order under IC 4-21.5. If a hearing is requested,
35 the hearing shall be held in compliance with IC 4-21.5.
